**Virtual Community Meeting Thursday, January 16<sup>th</sup> 4:00 p.m.:** Eaton Fire officials will host a virtual community meeting and provide an update on the current fire situation, address questions, and discuss recovery. The meeting will be streamed live on YouTube:

<https://www.youtube.com/@LosAngelesCountyFD>. A question-and-answer session will follow the presentation. Please submit your questions in advance via email at [2025.eaton@firenet.gov](mailto:2025.eaton@firenet.gov).

**Current Situation:** Today, aircraft continued to support firefighters along the northern edge of the fire, utilizing data from infrared flights, to locate and extinguish hot spots. Residual heat is largely confined to the foothill drainages, where dense brush remains. In Altadena, all three Urban Search and Rescue (USAR) teams were active, with the majority of search operations nearing completion. Firefighters have completed the application of ground-based retardant around the Jet Propulsion Laboratory and conducted brush clearance at strategic locations in La Cañada. Utility operations are ongoing in the affected communities.

**Weather:** Gentle offshore winds will continue to weaken tonight. Calmer but dry conditions will build Thursday with some moisture arriving this weekend. Critical fire weather conditions will likely return early next week.

**Damage Assessment:** Damage estimates from remote sensing technologies indicate over 7,000 structures may have been damaged or destroyed. While this is a preliminary estimate, the number of structures damaged and destroyed listed at the top of this page have been verified by on-the-ground damage inspection teams. Damage inspection teams have completed inspections for 50% of all structures within the fire footprint.

**Recovery Information:** <https://recovery.lacounty.gov/eaton-fire/>
