**Virtual Community Meeting Monday, January 13<sup>th</sup> 4:00 p.m.:** Eaton Fire officials will host a virtual community meeting to provide the current fire situation, address questions, and discuss recovery. The meeting will be streamed live on YouTube: <https://www.youtube.com/@LosAngelesCountyFD>. A question-and-answer session will follow the presentation. Please submit your questions in advance via email at [2025.eaton@firenet.gov](mailto:2025.eaton@firenet.gov).

**Current Situation:** Last night, firefighters continued active patrol and mop up, mitigating smoke and heat sources. Minimal fire activity was observed overnight, with smoldering and creeping. Individual pockets of unburned fuel continued to present challenges. A mobile retardant base has been set up at Mount Wilson to support air operations. Urban Search and Rescue efforts, infrastructure assessments, hazardous material response, and damage assessment operations continue in the communities along the southern edge of the fire. These operations are unprecedented in size and scale which are critical for mitigating existing hazards, confirming missing persons reports, and obtaining accurate number of structures loss.

**Recovery Information:** <https://recovery.lacounty.gov/eaton-fire/>

**Damage Assessment:** Damage estimates from remote sensing technologies indicate over 7,000 structures may have been damaged or destroyed. While this is a preliminary estimate, the number of structures damaged and destroyed listed at the top of this page have been verified by on-the-ground damage inspection teams. Damage inspection teams have completed inspections of 26% of all structures within the fire footprint.

**Weather:** The fire area will remain under a Red Flag Warning through early Wednesday. Strong, gusty northeast winds, alongside very dry conditions, will peak late Monday through Tuesday morning.

**School Closures:** Pasadena Unified School District Schools will remain closed from January 13-17, 2025. For more information see: <https://secure.smore.com/n/sgk78>

**Evacuations:** For the most up-to-date evacuation information visit, Genasys Protect using the link: <https://protect.genasys.com/search>

Evacuations remain in place for the affected cities due to continued fire activity, numerous downed trees, downed power lines, gas leaks and power outages. If you have questions or need specific clarification regarding evacuations in your area, please reach out to your city's official government website to receive further information.
