Issued: 07:19 MDT 6/15/25

Interagency Wildland Fire Air Quality Response Program

AIR QUALITY ADVISORY: Heat Advisory ([more info](#))

24 hour avg AQI for 6/15

FIRE

The **Trout** fire is currently estimated at 12,330 acres and is 0% contained. Fire activity for the **Trout** fire is expected to remain active.

SMOKE

An overall westerly flow aloft will continue to carry the smoke generally towards the east over the next several days. Westerly winds will gradually increase early next week which will likely result in heavier smoke reaching into the Rio Grande Valley. Downslope drainage winds will prevail at night and early morning resulting in areas of UNHEALTHY AQ to locally HAZARDOUS AQ and reduced visibility through late morning along Highway 35 from the intersection of Highway 15 downstream through the Mimbres Valley to San Lorenzo and westward on Highway 152. Periods of MODERATE AQ smoke impacts will also occur in drainages north of the Trout Fire, including Gila Hot Springs and eastward into the Rio Grande Valley from Truth or Consequences southward to Las Cruces.

Highway 35 (north of Mimbres) UNHEALTHY early this morning improving to MODERATE by afternoon then UNHEALTHY again tonight.

Mimbres VERY UNHEALTHY to HAZARDOUS AQ this morning and late tonight. MODERATE AQ midday into early evening.

Lake Roberts Overall MODERATE AQ with periods of USG AQ early this morning and late tonight, but GOOD AQ in the afternoon.

Las Cruces ED AQ will generally be MODERATE but there will be periods of GOOD in the evening.

Truth or Consequences Overall borderline MODERATE AQ but there will be many periods of GOOD AQ in the afternoon into this evening.

San Lorenzo Overall MODERATE AQ with GOOD AQ in the afternoon and evening and UNHEALTHY AQ in the early morning.

HEALTH STATEMENT

Smoke can be harmful to your health. Check with your doctor if there are any health concerns and monitor your local air quality conditions using the Fire and Smoke Map.

AIR QUALITY INDEX

	Hazardous (H)
	Very Unhealthy (VU)
