

# **SUNSET FIRE**

## **ROADS IN “SET” EVACUATION ZONE**

*At this level, begin the final preparedness actions before the imminent threat is present. Stay tuned to local emergency notification systems. Gather medications, important documents, important items and have them ready to go. Begin moving livestock to their evacuation location. Begin staging all necessary supplies in one area or load in your vehicle. Contact family and friends to let them know where you may be going or evacuating to. Be sure all of your vehicles are fueled up and ready to go. Clear gutters and roof of debris. Remove flammables from around the exterior of your home. Water around your structure to help create defensible space. Seal off any vents or soffits which are traps for embers.*
