Issued: 07:53 MDT 6/28/26

Interagency Wildland Fire Air Quality Response Program

24 hour avg AQI for 6/28

FIRE

The **Cottonwood** fire is currently estimated at 93,606 acres and is 0% contained. Fire activity for the **Cottonwood** fire is expected to decrease.

SMOKE

Light and variable winds today will result in a shift of the smoke pattern from the Cottonwood Fire.

For today (Sunday), air quality will remain MODERATE to UNHEALTHY FOR SENSITIVE GROUPS for locations directly east of the fire, including Marysvale, Junction, and Circleville. Other locations can expect overall GOOD conditions today. Tonight, light winds and much cooler air will allow smoke to settle into the valleys. Look for MODERATE to UNHEALTHY FOR SENSITIVE GROUPS air quality in Beaver overnight into Monday morning. The areas of Junction and Circleville can expect MODERATE to UNHEALTHY conditions overnight. Richfield and Salina will generally remain GOOD with periods of MODERATE.

Southwesterly winds return for the daytime Monday which will help clear smoke for most with the exception being the Marysvale area. Monday night into Tuesday morning may see smoke settle into Beaver, Circleville, and Junction areas once again.

Salina GOOD to MODERATE air quality expected.

Richfield GOOD to MODERATE air quality expected.

Marysvale Improving to GOOD late today. Smoke returns Monday afternoon.

Koosharem GOOD air quality today and tomorrow.

Junction Periods of Smoke continue. MODERATE to UNHEALTHY air quality conditions overnight.

Beaver Increasing smoke tonight, becoming MODERATE to UNHEALTHY FOR SENSITIVE GROUPS for Monday morning.

AIR QUALITY INDEX
