

SMOKE OUTLOOK

C Utah – Cottonwood Fire

7/05 - 7/06

ARA: Jayson Prentice (jprentice@blm.gov) & Amanda Cunningham (eaglefirewx@gmail.com)

Issued: 06:44 MDT 7/05/26

Interagency Wildland Fire Air Quality Response Program

24 hour avg AQI for 7/05

FIRE

The **Cottonwood** fire is currently estimated at 95,003 acres and is 45% contained. Fire activity for the **Cottonwood** fire is expected to remain active.

SMOKE

Today (Sunday): Beaver will start the morning with UNHEALTHY air quality, improving to GOOD this afternoon and staying clear through the evening. As fire activity increases during the afternoon, smoke is expected to move back into Marysville, Richfield, Salina, and Koosharem during the evening with periods of MODERATE air quality expected.

Similar conditions are expected Monday. Beaver will begin the day with UNHEALTHY air quality, improving to GOOD for the afternoon and evening. Winds will increase out of the southwest through the day, allowing smoke to move into the areas of Salina, Richfield, Koosharem and Marysville during the evening with MODERATE air quality once again.

SPECIAL STATEMENT

There is a chance of dry lightning Monday afternoon. These storms may produce strong, unpredictable winds that can quickly change smoke conditions. View current air quality conditions at <https://fire.airnow.gov/>

Richfield GOOD to MODERATE air quality is expected.

Marysville MODERATE conditions during the afternoon/evening, otherwise GOOD.

Junction GOOD air quality today. Period of MODERATE in the evening.

Koosharem GOOD to MODERATE air quality is expected.

Beaver Air quality improving to GOOD by the afternoon. UNHEALTHY conditions again tomorrow morning.

Salina GOOD to MODERATE air quality is expected.
