Interagency Wildland Fire Air Quality Response Program

The **Dome** fire is currently estimated at 6,801 acres and is 61% contained. Fire activity for the **Dome** fire is expected to decrease.

Minimal fire growth and decreasing activity is improving smoke impacts across the outlook area. Yosemite Valley experienced GOOD to MODERATE smoke impacts again yesterday. Expect MODERATE smoke impacts in Yosemite Valley today. Communities west of the fire including Yosemite West and Wawona will again experience periods of MODERATE smoke this morning that improve to GOOD by the afternoon. Smoke impacts to El Portal improved to GOOD and are expected to remain GOOD through the weekend. Mariposa will be GOOD today. Tuolumne Meadows can expect overall GOOD smoke impacts today to continue. Expect overall GOOD smoke impacts continuing across the outlook area. MODERATE to UNHEALTHY for SENSITIVE GROUPS ozone levels continue to blow into the outlook area from the San Joaquin Valley in the afternoons. Yosemite Valley has USG ozone impacts to today. Higher winds and rain in the forecast is expected to further improve air quality over the outlook area early next week.

SPECIAL STATEMENT

Ozone continues to impact air quality at Yosemite NP

The chart displays the number of hours spent on a project over three days. The y-axis represents hours, with grid lines every 1 unit. The data is as follows:

Day	Bar 1	Bar 2	Bar 3
Yesterday	2	3	4
Today	2	3	4
Tomorrow	2	3	4

Yesterday Today Tomorrow
